PROFILE

I am an Aspiring Front-End Developer with a strong foundation in HTML, CSS, and JavaScript, currently enhancing my skills in Git and JavaScript frameworks. I am passionate about creating responsive, user-friendly websites with clean, efficient code. I have built a Budget Tracker project to improve my JavaScript skills and data management techniques. My goal is to become a Full-Stack Developer and contribute to impactful projects.

Key Strengths:
- ✔ Strong understanding of HTML & CSS for responsive design
- ✔ Improving JavaScript skills for dynamic web applications
- ✔ Basic knowledge of Git & GitHub for version control
- ✔ Problem-solving mindset & eager to learn

PROJECT

ZenLedger (UG PROJECT)

Budget Tracker

A web-based tool to track income, expenses, and balance efficiently.
Technologies:
HTML, CSS, JavaScript, LocalStorage
Features:
Add income/expense transactions with timestamps
Auto-updated balance calculation
Persistent data storage with LocalStorage
Responsive UI using Flexbox & Media Queries
